

Claim File Index and Test Guide

Claim ID	PROP-B2B-2026-0417
Insured	Nordhafen Precision Parts GmbH
Document type	Index / synthetic test guide
Issued by	Synthetic data generator
Document date	27 June 2026
Loss location	Hafenstrasse 18, Building B, 30179 Hannover, Germany

Claim overview

This synthetic claim file concerns a commercial property loss at a precision-parts manufacturer. It is designed to test document splitting, document classification, party extraction, causation reasoning, reserve comparison, and citation retrieval.

Field	Value
Policyholder / insured	Nordhafen Precision Parts GmbH
Insurer	Aegis Mutual Industrial SE
Broker	Kronen Risk Partners GmbH
Loss date alleged	12 May 2026; exact ignition/alarm time differs across documents
Business activity	CNC-machined aluminium housings for industrial pump assemblies
Primary loss narrative	Fire in charging/loading bay followed by sprinkler discharge, smoke migration, and production shutdown.
Open coverage issues	Cause of fire; charger installation condition; landlord versus tenant property; BI period and mitigation.

Document register

No.	PDF	Type	Key use in tests
01	01_fnol_and_broker_notice.pdf	FNOL / email chain	Initial loss amount, first timeline, premises naming variance
02	02_policy_schedule_extract.pdf	Policy extract	Limits, deductibles, BI waiting period, charging condition
03	03_fire_brigade_incident_report.pdf	Official report	Alarm times, origin observations, suppression notes
04	04_adjuster_first_site_report.pdf	Loss adjuster report	Reserve, scope, first causation hypothesis
05	05_electrical_engineer_interim_report.pdf	Expert report	Probable charger/extension-lead cause; evidence limits
06	06_lease_responsibility_extract.pdf	Lease extract	Landlord/tenant property obligations and subrogation waiver
07	07_maintenance_service_records.pdf	Service records	Battery-charger/door/sprinkler service conflicts
08	08_restoration_contractor_estimate.pdf	Estimate	Emergency clean-up scope and cost
09	09_damaged_stock_and_machinery_list.pdf	Inventory	Stock/machinery itemization, salvage, valuation
10	10_repair_invoice_progress_application.pdf	Invoice	Costs incurred versus estimate
11	11_business_interruption_worksheet.pdf	BI calculation	Turnover, gross profit, saved costs, mitigation
12	12_witness_statements_pack.pdf	Witness statements	Conflicting observations and timeline
13	13_coverage_reservation_memo.pdf	Coverage memo	ROR issues, requested documents, preliminary coverage view

Known deliberate inconsistencies for retrieval tests

- The premises are referred to as Building B, unit 3, and 18A in different documents.
- Ignition/alarm time appears as 02:13, 02:27, 02:38, and 02:47 depending on source.
- Probable origin is described as the forklift charging alcove, the loading bay, or the maintenance room.
- The policy covers tenant improvements but not the landlord-owned shell, while the insured includes building repairs in early estimates.
- The service record says the charger cable was replaced on 04 May 2026; the engineer says the recovered plug showed older heat damage.
- Sprinkler maintenance is shown as current in the lease schedule but overdue in one contractor note.
- The BI worksheet claims 56 affected days; the adjuster initially reserves only 21 payable days after waiting period and mitigation.

Reserve and claimed amount snapshot

Bucket	Initial FNOL	Adjuster reserve	Later claimed / invoiced
Building / tenant improvements	EUR 410,000	EUR 380,000	EUR 312,450 restoration estimate; separate landlord shell claim pending
Stock	EUR 520,000	EUR 540,000	EUR 742,600 inventory gross; EUR 96,500 estimated salvage
Machinery / equipment	EUR 300,000	EUR 425,000	EUR 441,900 gross listed; two machines disputed as pre-existing corrosion
Business interruption	EUR 800,000	EUR 335,000	EUR 611,200 worksheet before deductible/waiting period
Total exposure view	EUR 2,030,000	EUR 1,680,000	Not yet agreed

Suggested test questions

- What is the most likely cause of loss and which documents support or contradict it?
- Which claimed repair costs relate to landlord-owned building property rather than insured tenant improvements?
- What BI amount is claimed, what assumptions drive it, and how does it compare with the adjuster reserve?
- Which facts support subrogation against HanseLift Service GmbH or the landlord?
- List all document-specific loss dates, alarm times, and premises references with citations.
