Endorsement 7 - battery charging warranty

The insured warrants that industrial battery charging equipment with rated output over 2 kW must be installed as a fixed electrical installation, protected by an appropriate breaker, and located at least 2 metres from combustible stock or packaging unless separated by non-combustible partitioning.

Temporary extension leads, multi-socket adapters, and unlabelled chargers are not permitted for overnight charging. Breach of this warranty may restrict cover to the extent the breach caused or increased the loss, subject to applicable law.

BI basis of settlement extract

- Gross profit is turnover less purchases, freight outward, and direct production consumables that vary with turnover.
- Savings in payroll are deducted only where employees are not paid or are funded by public wage support.
- Reasonable additional expenditure is covered if it avoids or reduces a larger BI loss and is economically justified.
- The insured must maintain and produce sales forecasts, order books, production schedules, and mitigation records.

Relevant exclusions and conditions

Clause	Relevant wording extract	Why it may matter
Defective design / workmanship	Excludes cost of correcting defective design, workmanship, or material; ensuing insured damage remains covered unless otherwise excluded.	If charger installation caused fire, charger correction may be excluded but smoke/water damage may still be covered.
Unoccupied / idle premises	No reduction unless premises idle more than 60 consecutive days.	Not relevant on current facts.
Records condition	Stock values must be supported by stock records and recent physical counts.	ERP export is draft and may overstate damaged WIP.
Landlord property	Insured may recover only for improvements it owns or is contractually liable to repair.	Partition walls, roller shutter, and ceiling panels disputed.
